

EmergiPress Continuing Education – 1 Unit CE

December 2019

The EmergiPress Education Newsletter is divided into three sections each month. Completing all three sections should take approximately 1 hour. After completing the sections, the corresponding EmergiPress test can be completed and submitted for 1 unit CE through your provider agency continuing education coordinator. A passing score of 80% and completion of a course evaluation is required for CE credit. Students must also sign-in on an EMS CE Roster.

Objectives:

Upon completing this activity the participant will be able to:

Case of the Month – Epinephrine in Cardiac Arrest

- Describe priorities in cardiac arrest resuscitation
- Understand the clinical applications of epinephrine in cardiac arrest and recent published data on dosing
- Review the management of refractory ventricular fibrillation
- Review priorities in post-return of spontaneous circulation (ROSC) care

ECG of the Month – Wolff-Parkinson-White

- Describe ECG changes that can occur in patient with cardiac pre-excitation syndromes
- Identify ECG changes related to Wolff-Parkinson-White syndrome and their clinical relevance
- Review cardiac electrophysiology anatomy
- Describe appropriate prehospital management for a patient with a suspected pre-excitation syndrome

Video Learning Module – Drowning

- Review the definition of drowning and clinical management of the drowning patient
- Describe the pathophysiology of drowning
- Understand recommended terminology for use in describing injury related to drowning
- Describe management priorities in drowning resuscitation
